# Libisha Selvakumar

Bengaluru, Karnataka
libishaselvakumar123@gmail.com | https://www.linkedin.com/in/libisha-s-/

## Summary

QA Engineer with 9 months of hands-on experience in manual testing of web and mobile applications, including Functional, Regression, Integration, Smoke, Sanity and Exploratory Testing. Experienced in test case design, defect tracking using Jira, REST API testing using Postman, and database validation using SQL. Currently developing automation testing skills in Java, Selenium WebDriver, TestNG, Maven, Page Object Model (POM) and Git/GitHub, with the goal of transitioning into an Automation QA Engineer role.

## Experience

**QA Engineer** **Feb 2026 - Present**
***DST Global Private Limited*** *Remote*

- Perform manual testing of web applications, including functional, UI, regression, integration, smoke and sanity testing.
- Analyze requirements and prepare test scenarios and test cases covering positive, negative and end-to-end workflows.
- Execute test cases and report defects with clear steps to reproduce, expected results and actual results.
- Track defects in Jira, retest fixes and perform regression testing to verify application stability.
- Perform REST API testing using Postman to validate requests, response payloads, status codes and business rules.
- Execute MySQL queries to validate backend records and data consistency.
- Collaborate with developers and team members to investigate issues and support quality releases.
- Work within an Agile environment and participate in testing activities throughout the software development life cycle.

**Software Development Intern (Work Based Learning)** **Aug 2025 - Feb 2026**
***Centre for Development of Advanced Computing (C-DAC)*** *Electronic City, Bengaluru*

- Supported application development and validation activities in a team environment.
- Worked with Java, Spring Boot and MySQL during application development and migration activities.
- Assisted with data validation and application checks.
- Gained exposure to software development workflows, database operations and application integration.

## Skills

- **Testing:** Manual Testing, Functional Testing, Regression Testing, Integration Testing, Smoke Testing, Sanity Testing, Exploratory Testing, Test Case Design, Defect Life Cycle
- **Automation Testing:** Selenium WebDriver, Java, TestNG, Page Object Model (POM), Maven
- **API Testing:** Postman, REST API Testing, HTTP Methods, Status Codes, JSON Validation
- **Database:** SQL, MySQL, Database Validation
- **Tools:** Jira, Git, GitHub
- **CI/CD:** CI/CD Fundamentals, Jenkins Basics, Automated Test Execution
- **Methodologies:** SDLC, STLC, Agile/Scrum

## Education

**Master of Computer Applications (MCA) in Computer Applications** **2023 – 2025**
*SRM Institute of Science and Technology* ***CGPA – 9.05/10***

**Bachelor of Science (B.Sc.) in Computer Science** **2020 – 2023**
*Women's Christian College* ***CGPA – 8.23/10***

## Certifications

- **Java SE 11 Developer -** EDUEX
- **Java Full Stack Development -** Besant Technologies
- **Advanced Computer Network -** NPTEL
- **Python Data Analytics -** Coursera
- **Python Basic -** HackerRank
- **Responsive Web Design -** freeCodeCamp
- **AICTE -** Web Full Stack Virtual Internship
